Re: Coffin MRS, Courtenay SC, Knysh KM, Pater CC, and van den Heuvel MR. 2018. Impacts of hypoxia on estuarine macroinvertebrate assemblages across a regional nutrient gradient. FACETS 3: 23–44. doi:[10.1139/facets-2017-0044](https://doi.org/10.1139/facets-2017-0044)

On page of 40 the originally published article, the title of the journal in the following reference was incorrectly cited as Pollution Bulletin. The correct title is Marine Pollution Bulletin.

Coffin MRS, Courtenay SC, Pater CC, and van den Heuvel MR. Submitted. An empirical model using dissolved oxygen as a proxy for eutrophication at a regional scale. Pollution Bulletin.

The corrected (and updated) reference is shown here:

Coffin MRS, Courtenay SC, Pater CC, and van den Heuvel MR. 2018. An empirical model using dissolved oxygen as an indicator for eutrophication at a regional scale. Marine Pollution Bulletin, 133: 261–270. PMID: 30041313 DOI: [10.1016/j.marpolbul.2018.05.041](https://doi.org/10.1016/j.marpolbul.2018.05.041)

The article has been corrected accordingly.
