Fig. 1. Protected areas in Canada by their governance and identifying those that are Other Effective Area-Based Conservation Measures (OECM). OECMs are areas that are not designated through the same legal frameworks as protected areas, but they are managed in ways that achieve positive, long-term outcomes for the in-situ conservation of biodiversity (CBD 2018). Data Sources: Protected Areas: Canadian Protected and Conserved Areas Database (Environment and Climate Change Canada 2019); Basemap: Esri, Inc.
